- 6th Circular Exhibition of Photography "TOWER 2020" - Ruma, Serbia
- 6th Circular Exhibition of Photography "TOWER 2020" - Vrbas, Serbia

- The Salon will be conducted in accordance with the requirements and practices of The Photographic Society of America (PSA)
- Acceptances received by PSA members in approved sections of this exhibition are eligible for PSA Star Ratings, listing in the worldwide PSA Who's Who of photography, and credited toward the PSA Distinctions PPSA and EPSA.

BREACH OF CONDITIONS OF ENTRY

If at any time, it is determined in the reasonable discretion of the exhibition organizer or the judges before, during, or after the judging of an exhibition that an entrant has submitted entries where one or more images may fail to comply with these Conditions of Entry, including the stated definitions, the exhibition organizers reserve the right to delete the entry from the exhibition and void any or all acceptances or awards in connection with the exhibition. Fees may be forfeited or refunded in these circumstances. The entrant acknowledges that the decision of the exhibition organizers or the judges is final.

In order to ensure that images comply with the Conditions of Entry and definitions, the exhibition organizers may carry out reasonable measures to verify that:

- the images are the original work of the entrant and
- the images comply with the rules and definitions as set out in these Conditions of Entry.

These steps include, but are not limited to, questioning any entrant, requiring the submission of RAW files or other digital files representing the original capture of the submitted image(s), confronting the entrant with evidence that one or more submitted images fails to comply with the Conditions of Entry (also known as Entry Rules), and offering the entrant a reasonable opportunity to provide counter evidence to refute the exhibition organizer's evidence by a set deadline. Such entries that are not cleared or are still questionable after the entrant has presented evidence may be considered in breach of these Conditions of Entry, and declined. Such entries may be referred to PSA for further investigation of possible ethics violations.

PSA retains the right to investigate in any way all complaints/suspensions of breaches of entry conditions, impose sanctions if deemed necessary, void the acceptances of any image found to violate the PSA rules, include the entrant's name on the list of sanctions provided to Exhibitions, and

share such investigations with FIAP. Entrants automatically agree to these terms by the act of entering the Exhibition and agree to cooperate with any investigation.

CONDITIONS OF ENTRY

The exhibition is open to anyone; however, an entry may be rejected when the sponsoring organization or its agent, in its reasonable discretion, believes the entry does not conform to the exhibition rules and conditions.

An entrant's images will not be presented to the judges consecutively. An entrant's four images will be distributed throughout four rounds of judging in that section. Distribution of images shall be in the same round order as submitted by the entrant.

Entries must originate as photographs (image-captures of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally. By virtue of submitting an entry, the entrant certifies the work as his own (aliases are not permitted). The entrant permits the sponsors to reproduce all or part of the entered material free of charge for publication and/or display in media related to the exhibition. This may include low resolution posting on a website. Note: Entrants who indicate that their images may not be reproduced or used "will not be eligible for awards" or inclusion in audio-visuals of the exhibition "and could be subject to disqualification" by the exhibition sponsors.

The exhibition assumes no liability of any misuse of copyright. Images may be altered, either electronically or otherwise, by the maker. All parts of the image must have been photographed by the author who is holding the copyright of all works submitted.

All final work must be on photographic film, or on electronic file, or on photographic or electronic print material, mounting excepted.

No title or identification of the maker shall be visible anywhere on the face of an image, print mat or mount entered in a PSA Recognized exhibition.

Each image must have a unique title. Once an image has been accepted in a PSA Recognized exhibition, that same image, or a like "in camera" or a "reproduction" duplicate of that image:

- i. May not be entered or re-entered in any section of the same Division Star Ratings class in that exhibition regardless of media, format, or title.
- ii. May not be re-titled for entry in any other PSA Recognized exhibition, including translation into another language.

Words such as "Untitled" and "No Title" are not acceptable as part or all of an image's title, nor are camera capture filenames.

An image may be entered in only one section where acceptances of that image in multiple sections would be eligible for the same star path.

- i. All acceptance eligibility shall be in accordance with the PID Star Ratings or the Galaxy/Diamond Ratings requirements as appropriate.

All entries shall conform to the stricter of these definitions for acceptances to be validated by all the International Organizations granting recognition or patronage.

DATA PROTECTION

By entering this exhibition, you are explicitly consenting to the personal details you have supplied, including email addresses, being held, processed and used by the exhibition organizers for purposes associated with this exhibition. You also explicitly consent to such information being sent to organizations which have accorded official recognition, patronage or accreditation to this exhibition. You acknowledge and accept that entering this exhibition means that the status and results of your entry may be made public.

Your email address and contact information will not be made public.

DEFINITIONS

FIAP Definition of the black and white photography (monochrome)

A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey. A black and white work toned entirely in a single colour will remain a monochrome work able to stand in the black and white category; such

a work can be reproduced in black and white in the catalogue of a salon under FIAP Patronage. On the other hand a black and white work modified by a partial toning or by the addition of one colour becomes a colour work (polychrome) to stand in the colour category; such a work requires colour reproduction in the catalogue of a salon under FIAP Patronage.

PSA Monochrome Definition

An image is considered to be Monochrome only if it gives the impression of having no color (i.e. contains only shades of gray which can include pure black and pure white) OR it gives the impression of being a grayscale image that has been toned in one color across the entire image. (For example by Sepia, red, gold, etc.)

A grayscale or multi-colored image modified or giving the impression of having been modified by partial toning, multi toning or by the inclusion of spot coloring does not meet the definition of monochrome and shall be classified as a Color Work.

Monochrome images may not be entered in PID Color sections.

PSA Nature Definition

Nature photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology and archeology, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation.

- The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality.
- Human elements shall not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves.
- Scientific bands, scientific tags or radio collars on wild animals are permissible.
- Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible, as is any form of manipulation that alters the truth of the photographic statement.
- No techniques that add, relocate, replace, or remove pictorial elements except by cropping are permitted.
- Techniques that enhance the presentation of the photograph without changing the nature story or the pictorial content, or without altering the content of the original scene, are permitted including HDR, focus stacking and dodging/burning.
- Techniques that remove elements added by the camera, such as dust spots, digital noise, and film scratches, are allowed.
- Stitched images are not permitted.
- All images must appear natural.
- Color images can be converted to greyscale monochrome.
- Infrared images, either direct-captures or derivations, are not allowed.

- Images entered in Nature sections meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.
- **All entries shall conform to the stricter of these definitions for acceptances to be validated by all the International Organizations granting recognition or patronage.**
